

EDIUS version 4.0 Demo is available!!

EDIUS Pro version 4 is here, incorporating a number of significant and highly requested new features into the powerful realtime NLE software engineered by Canopus. Here are just some of the new features you will see with this eagerly anticipated release:

- Multicam Editing Mode
- Nested Timeline Sequences
- Enhanced Color Correction Controls
- Revised User Interface
- New Trimming Mode Window
- Improved Audio Channel / Track Mapping
- EDIUS Speed Encoder for HDV
- Windows Media Import & Editing Support
- Dolby Digital (AC-3) Audio Import Support
- Broadcast WAVE Format (BWF) Audio Export Support
- Alpha Support for the Canopus HQ codec
- 1920 x 1080 (60i/50i) Project Preset

NLE Systems: EDIUS 4.0 Software + Realtime Editing Hardware

EDIUS HD, EDIUS SD, EDIUS SP, EDIUS NX and EDIUS NX with HD Expansion Kit are NLE Systems built around EDIUS 4.0 software. EDIUS 4.0 also supports the DVStorm series of editing hardware.

Scheduled demonstration on EDIUS 4.0 will be held 10am – 1pm & 3pm – 6pm every Friday.

Datavideo Range of Mobile Video Studios (NEW!)

The Datavideo MVS series are fully integrated one box solutions designed around Datavideos acclaimed switcher range. The MVS series has been designed to meet the requirements of users on the move. The systems can be "Live in Seconds" in almost any operating environment.

The HS-500, MS-500 and MS-800 are flexible and affordable, with specifications that can meet any budget, while at the same time built for easy setup and tear down on location.

HS-500 RM8,999

HS-500 is a compact and portable one box solution, built around the SE-500. Designed with no compromise in performance for users where weight matters. Perfect for applications within education, places of worship, internet streaming, event & live staging, conferences and many more.

HS-500 comes supplied complete in a stylish and light aluminium carrying case, for easy and secure transport and storage.

MS-500 RM18,999

MS-500 is a one box solution designed around the SE-500 four-channel analog video switcher. The MS-500 system is both flexible & affordable, with specifications that can meet any budget or demand.

The whole system is fully integrated with the ITC-100 for talkback/intercom, TLM-702 – 2 x 7" TFT LCD for SE-500 unique quad preview, next source and main output monitoring.

* DVD Recorder not included

MS-800 RM59,999

At the heart of the MS-800 lies the SE-800 4-channel DV / analog audio video switcher. The SE-800 allows four channels of digital or analog video and up to six channels of audio to be mixed / switched.

The whole system is fully integrated with the ITC-100 for talkback / intercom, RMC-140 for next source preview and tally display, TLM-404 for input monitoring and TLM-702 for next source and main output monitoring.
