Non Linear Editing (NLE) Workshop

Come and visit us at the P2 booth for a demo on the seamless integration of the DVCPRO 50, DVCPRO HD and P2 support.

On display are Canopus EDIUS Broadcast version 4.1 with 8 realtime Multicam editing and nested sequences using EDIUS SD, EDIUS SP and EDIUS NX hardware.

Canopus will have a special announcement on 6th December 2006 during the Session 2 workshop.

Canopus – The best-kept secret in the broadcast industry
