EDIUS NX HD Suite is a Complete HD Editing Suite – Ready for Today and Tomorrow!

The package includes:

- EDIUS NX PCI Express card
- EDIUS NX HD Component Output PCI board
- EDIUS NX Bay
- EDIUS Pro 4.5 SE (A Special EDIUS version with P2, XDCAM & Infinity Support)
- prodad Heroglyph EDIUS edition
- prodad VitaScene V1 EDIUS edition
- prodad Mercalli V1 Expert

EDIUS NX PCI Express card, HD Component Output PCI board & EDIUS NX Bay

Grass Valley EDIUS NX system features advanced hardware, built upon high-speed, high-bandwidth PCI Express technology that provides editors with video acquisition and output capabilities including full-quality, full resolution component HD/SD video output as well as hardware-based line scaling and video overlay, for ultimate realtime HD/SD editing and effects composition performance. EDIUS NX features onboard analog filtering technology (to improve the quality of analog footage during capture). EDIUS NX have hardware-assisted DV editing with its onboard hardware DV codec.

EDIUS Pro 4.5 SE

Grass Valley EDIUS Pro 4.5 Special Edition NLE software frees you from the limitations of conventional editing systems. Providing a seamless realtime workflow supporting all video acquisition formats, including all DV, HDV, P2, XDCAM & Infinity cameras and decks. EDIUS Pro features realtime, multi-track, mixed format HD/SD editing, compositing, chroma keying, titling and timeline output capabilities.

Heroglyph EDIUS Edition works as native Title Plug-in inside EDIUS.

It is perfect solution for titles and trailers! Animated itineraries, handscript & 3D video walls! For discerning semi-professionals and professionals who are looking for flexibility and quality! Heroglyph is the ultimate solution for creative cutters with higher needs

VitaScene EDIUS Edition works as native Transition & Filter Plug-in inside EDIUS

VitaScene has more than 260 stylish transition effects and filters! 100% GPU processing power! 100% interactive! It is perfect for discerning professionals who are looking for the best quality in the shortest time! Everything is thoroughly keyframable and just add the filter to the clip, adjust the settings & render to see the result.

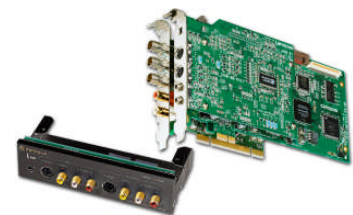

Mercalli V1 Expert works as native Filter Plug-in inside EDIUS

Mercalli is a tool for the stabilisation of video clips during post-processing which is extremely fast & easy to use. Mercalli is an excellent image stabiliser. This basically takes shaky footage and stabilises it. With most image stabilisers you need to define an area for the plug-in to scan, then scan, then refine etc. Mercalli does it automatically.
