

New Snazzi* Adobe Premiere Pro 2 Bundle!!

Snazzi* announced the new bundling with a full version of Adobe Premiere Pro 2. This new bundle is the Snazzi* HDV. Premiere Pro 2 (SN1522).

Snazzi* HDV. Premiere Pro 2

*** PROFESSIONAL EDITING SOLUTION FOR SD, HD AND HDV**

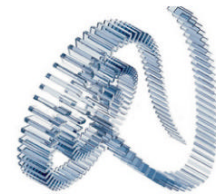

Snazzi* HDV. Premiere Pro 2 (SN1522) includes a full version and the full suite of Adobe Premiere Pro 2 modules with a Snazzi* FireWire Card. With this it sets new standards in SD / HD post-production industry by providing advanced level professional editing solution with highly versatile codec technology support. Snazzi* HDV. Premiere Pro 2 allows you to capture native High Definition videos, edit multiple HDV streams, create next-generation motion graphics & visual effects, mix audios, author professional videos and foremost, playback HDV streams on your plasmas or projectors – taking Snazzi* HDV. Premiere Pro 2 above and beyond a typical video editor.

All those features, unprecedented affordable and seamless integration with other Adobe applications makes it an ideal choice for those who are looking for complete HD Post Production package for capture, edit, produce & playback of HD. Even for your SD production, shooting and editing down from HDV source will give a far superior picture quality output than an SD to SD production.

- Real-Time capturing and editing in native SD/HD including HDV formats
- Edit Multicam Videos for professional production environment
- Get fast client reviews using Adobe Clip Notes
- Triple HD editing performance of Adobe Premiere Pro 2 using GPU
- Produce elegant Menu-Driven DVD directly from timeline
- Multiple Nestable Timelines
- Use HDV source to produce far superior SD output

Snazzi* HDV. Premiere Pro 2 (SN1522)
RM3,250
