

## More info on Grass Valley EDIUS

### EDIUS 6.03 Graphic User Interface

Grass Valley EDIUS 6 editing solutions are the fastest way to finish content, whether for news, sports, entertainment, documentary, or education. EDIUS 6 nonlinear editing software is designed to meet the requirements of both a broadcast production environment and the independent editor requiring the highest quality, ease of use, and fastest finishing possible.

Edius 6 has become the fastest, most versatile multi-format film/video editing software in the world. One of Edius' strongest features is the intuitive user interface.

\* GUI layout may vary due to different display layouts and product version (above is EDIUS version 6.03)

Edius have created a helpful PDF displaying the range of Edius user interface. Please download the pdf file from the link here: [www.graphics-vision.com/EDIUS\\_GUI\\_Overview.pdf](http://www.graphics-vision.com/EDIUS_GUI_Overview.pdf)

### EDIUS 6.03 Video Tutorial from EventDV.com

Video professionals like to watch videos, fancy that!

The EventDV video tutorial series on EDIUS has proven quite popular!

The first topic, Using the new Mask Filter has already been viewed **over 4,000 times!** If you haven't seen them yet, please take a look! These tutorials really show off the efficiency of the **EDIUS** nonlinear editing software for real-world video editing tasks.

Check it out at: <http://vimeo.com/channels/edius6>

### Nikon D7000 User

For Nikon D7000 users who encounter error message when trying to open D7000 movie file in EDIUS and have to open the D7000 movie file with Quicktime and then 'save as' before you can open it in EDIUS editing software, the problem has been acknowledged by Nikon. And they have released in April 2011, a D7000 firmware version 1.02 which fixed error in certain movie editing software applications, including Grass Valley EDIUS.

### EDIUS used worldwide to produce Film & TV Drama

**Red Union Films** is an independent movie production company, based in the north-west of England. It enjoyed great success with its 2009 feature film **Awaydays**, and has just completed the adaptation of another Kevin Sampson novel, **Powder**, about the rise and fall of a rock band.

For **Awaydays**, Red Union Films invested in its own editing facilities, based on the Grass Valley EDIUS, and this platform continued to do sterling service on **Powder**. Owning their own EDIUS systems has enabled Red Union Films to respond to all the creative variables that happen in independent filmmaking, while allowing them to maintain complete control over production from the beginning to the very end.
