

HD Mobile Video Workshop in Ipoh!!

Graphics Vision (M) Sdn. Bhd. will be conducting a HD Mobile Video Workshop in Ipoh on 17th April 2012 – our first workshop out of Klang Valley in 2012. We are planning to have a series of such workshop this year. We are organizing such workshop so that customer in the rest of Malaysia will able to see a complete HD mobile video solutions that is available in Malaysia – from camera to portable switcher to portable recorder for storage, laptop editing & even live web streaming – all in full HD glory.

On that day we will showcase 3 main products from Grass Valley STORM Mobile with EDIUS 6.06, Datavideo HS-2000 with HDR-10HD & Digital Rapids TouchStream.

Time: 2:00 pm – 4:30 pm

Interested, please call Ms Winnie or Mr V-Shing at 03-7727 1868 for advance booking for seating is limited.

Grass Valley STORM Mobile with EDIUS 6.06

Grass Valley STORM Mobile is a new addition to the growing STORM line of EDIUS I/O units. Available in different configurations for notebooks and desktop PCs, the Grass Valley STORM Mobile offers a variety of video and audio inputs and outputs for use with EDIUS 6 nonlinear editing software - catering to a broad spectrum of editors ranging from "prosumers" working on personal projects at home to broadcast/professional users editing tapeless HD footages on location.

STORM Mobile allows notebook PC users editing with EDIUS to input a wide variety of video as well as audio sources. Full HD live video playback - during editing as well as playback - is now available via HDMI even from a Notebook.

Datavideo HS-2000 & HRS-10HD

The Datavideo HS-2000 is a compact, broadcast quality HD-SDI mobile video studio ideal as a fly away kit. The HS-2000 is a five channel 10-bit 1920x1080i or 1280x720p HD-SDI and DVI-D video & audio switcher, with advanced features such as a 17-inch multi image video monitor displaying each source, together with preview and program, a complete five way intercom system supplied with four belt packs, title overlay and DVI-D connection ideal for use with presentation software.

The Datavideo HRS-10HD is an integrated HD/SD-SDI field recording and monitoring solution, ideal for on location use with Datavideo HS-2000 mobile video studio. The system combines the Datavideo's HDR-40 and TLM-700HD, with a integrated power distribution unit, built in a sturdy carry case.

Digital Rapids TouchStream

The Digital Rapids TouchStream video and audio streaming appliances combine Digital Rapids' renowned live streaming quality and reliability with an intuitive touch-screen interface in a fully self-contained, easy-to-deploy, portable form factor for professional streaming applications.

Ideal for professional media streaming in the field, on a desktop or in a rack, TouchStream appliances offer unparalleled ease-of-use. Software controls are accessed through a vivid, streamlined touch-screen interface with integrated live video monitoring and VU meters for audio validation, eliminating the need for laptops, keyboards, mice and separate monitors
